

STATEMENT OF PURPOSE

RS30205 / H0122

Over a third of women in Idaho do not have health insurance prior to pregnancy and do not have access to health coverage beyond 60 days postpartum. Infants and toddlers are behind in well child visits and developmental screenings. Idaho's rate of uninsured children is also on the rise. This legislation will improve health access for pregnant/postpartum women and infants and ensure 12 months postpartum health coverage for women.
